

FAST[™] EZ-EFI[®] Dual Quad Upgrade Kit

New upgrade kit features dual throttle bodies for added horsepower potential with the same easy hand-held setup as the original EZ-EFI[®]

The original FAST[™] EZ-EFI[®] featured patent pending technology with the most advanced self tuning control strategy available anywhere today. You could simply hook up the necessary wires, answer the basic setup Wizard questions on the included hand-held display and the system tuned itself as you drove. But now there is an EZ-EFI[®] Dual Quad Self Tuning Fuel Injection System that features all of this same technology and is capable of supporting up to 1000+ horsepower engines and has the ability to double your fuel capacity!

This new system is offered as an upgrade kit to the existing EZ-EFI[®] kits* and adds several additional parts, including a second unique throttle body for use with existing dual quad carburetor-type manifolds, injectors and a basic linkage kit necessary to hook the two throttle bodies together (works with most inline manifolds).

The original EZ-EFI[®] Self Tuning Fuel Injection System is a complete kit that includes the ECU, wide-band oxygen sensor, wiring harness, fuel injectors, optional fuel pump kit and other assorted components, including the innovative 4150 Throttle Body. The FAST[™] 4150 Throttle Body delivers the total package approach for anyone with an existing 4150-type intake manifold. Everything comes with the kit, including appropriate fuel injectors and fuel rails. In addition, it works with the original carb-style throttle linkage and is ready to accept all OEM sensors.

For more information about the FAST[™] EZ-EFI[®] Dual Quad Upgrade Kit or any other FAST[™] product, call our toll free EFI HELP[™] help line at 1-877-334-8355, or visit us online at www.fuelairspark.com.

*** Dual Quad Upgrade Kit must be used in conjunction with the original FAST[™] EZ-EFI[®] Self Tuning Fuel Injection System, Part #30226-KIT or #30227-KIT**

Quick Summary

Product: FAST[™] EZ-EFI[®] Dual Quad Upgrade Kit

Part Number: #304155 (Upgrade Kit); #304110 (Throttle Linkage Kit)

Features & Benefits:

- Bolts-on to ANY engine up to 1000+ hp; ideal for hot rodders looking to increase fuel capacity
- Easy-to-use setup Wizard provides comprehensive walk-through & system tunes itself
- Base EZ-EFI[™] System includes ECU, wide-band O₂ sensor, wiring harness, injectors, throttle body and optional fuel pump kit
- Dual Quad Upgrade Kit includes second throttle body, fuel injectors & linkage kit
