## **TCI® 6x Six-Speed Automatic Transmission Kits For Ford Engines**

**Transmission technology leader introduces the world's first six-speed automatic transmission package for Ford engines capable of handling up to 850 horsepower**

TCI® has recently launched a Ford version of its innovative 6x Six-Speed Transmission Kit. Utilizing the latest drivetrain technology, TCI® has created new packages that include the original TCI® 6x Six-Speed Automatic Transmission and a bellhousing for either the Ford Small Block, 6-Bolt and 8-Bolt Small Block, or Big Block engine. The TCI® 6x Six-Speed Automatic Transmission is a fully programmable transmission that gives drivers six forward gears (2.97, 2.23, 1.57, 1.18, 1.00, 0.75) for quicker acceleration and increased fuel economy at cruising speeds. Capable of handling up to 850 horsepower, and with a full manual option when utilizing a paddle shifter or bump shifter, these kits are perfect for Pro Touring, street and race vehicles.

These new kits allow you to bolt the innovative TCI® 6x Six-Speed Transmission to Ford Small Block, 6-Bolt or 8-Bolt Small Block, and Big Block motors without using an adapter plate. All kits include a 6x transmission with the appropriate Ford bellhousing, flexplate, transmission control unit with harness, dipstick, fluid and cooler – there is no need to purchase a special flexplate or adapter. Additionally, the flexplates and bellhousings are SFI-approved. TCI® also offers 6x Six-Speed Transmission Packages which include the TCI® Paddle Shifter or Outlaw™ Shifter – for a complete turn-key drivetrain solution.

A fully programmable transmission control unit allows users to program specific shift points and line pressures, as well as converter lockup, giving Ford-powered vehicles the most functional and modern drivetrain combination on the market. In addition, each TCI® transmission utilizes the patented HDT (Heat Dissipating Technology™) Coating™ for cooler operating temperatures and improved drivetrain efficiency. TCI® engineers run each transmission across a computer-controlled transmission dyno to ensure proper line pressures and top notch performance. Individual serialized spec sheets containing test scores are included with each transmission.

For more information about the new TCI® 6x Six-Speed Automatic Transmission Kits for Ford Engines or any other TCI® product, call us at 1-888-776-9824, or visit us online at [www.tciauto.com](http://www.tciauto.com).

### Quick Summary

**Product:** TCI® 6x Six-Speed Automatic Transmissions for Ford Engines

**Part Numbers:** #271601P4 (Small Block); #271601P19 (Small Block w/ Paddle Shifter); #271601P20 (Small Block w/ Outlaw™ Shifter); #271601P6 (6-Bolt Small Block); #271601P23 (6-Bolt Small Block w/ Paddle Shifter); #271601P24 (6-Bolt Small Block w/ Outlaw™ Shifter); #271601P7 (8-Bolt Small Block); #271601P25 (8-Bolt Small Block w/ Paddle Shifter); #271601P26 (8-Bolt Small Block w/ Outlaw™ Shifter); #271601P5 (Big Block); #271601P21 (Big Block w/ Paddle Shifter); #271601P22 (Big Block w/ Outlaw™ Shifter)

### Features & Benefits:

- Packages that include original 6x Six-Speed Automatic Transmission w/ Ford application bellhousings and are capable of 850 hp
- Package includes original 6x Six-Speed Transmission with appropriate Ford bellhousing, flexplate, transmission control unit, wiring harness, transmission cooler, dipstick and fluid
- Six forward gears & fully programmable shift points improve both acceleration & fuel economy
- Unique HDT (Heat Dissipating Technology™) Coating™ for cooler & more efficient operations
- Available for Ford Small Block, 6-Bolt & 8-Bolt Small Block and Big Block applications
- Packages that include the TCI Paddle Shifter or the Outlaw™ Shifter also available

Part #271601P4
