

TCI[®] Ford Mustang 5.0L Coyote Machined Flexplate

Ashland, MS – A new Mustang flexplate from TCI[®] provides a bolt-on upgrade over the stock component. It is a must for high-stall converters.

Late model Mustangs are capable of producing tremendous amounts of horsepower and torque. The SFI 29.1-approved, TCI[®] Ford Mustang 5.0L Coyote Machined Flexplate provides the strength, rigidity and durability required for the most powerful applications from the blue oval. The machined center section is thicker than stock for increased torque capacity, while the complete unit is e-coated for durability as well as rust and corrosion protection. Precisely controlled run-out helps prevent interference from the starter to the ring gear and results in better balance along with less vibration and wear. Designed with a 164-tooth ring gear and exclusive to TCI[®], the Ford Mustang 5.0L Coyote Machined Flexplate is designed for 2011 and newer Mustangs, along with other applications utilizing a Ford 6R80 transmission. It is compatible with both 457000-series and stock torque converters.

Quick Facts

Product: TCI[®] Ford Mustang 5.0L Coyote Machined Flexplate

Part Number: #529942

Street Price: Call for Pricing

Social Media Pitch: The TCI[®] Ford Mustang 5.0L Coyote Machined Flexplate provides increased strength, rigidity & durability in high HP/torque applications

Features & Benefits:

- Machined center section is thicker than stock, allowing for increased torque capacity; SFI 29.1 approved
- E-Coating provides durability along with rust & corrosion protection
- Precisely controlled run-out prevents interference between starter & ring gear –creates better balance plus less vibration & wear

About TCI[®]

When TCI[®] opened its doors in 1968, it was a modest operation dedicated to delivering high performance transmission-related parts to a small group of drag racers. From those humble beginnings in Memphis, TN, TCI[®] has grown to be one of the largest and most technologically advanced manufacturers of high performance aftermarket drivetrain products. Now located in Ashland, MS, some 45 miles from parent company the COMP Performance Group™, TCI[®] continues to set trends and expand its line of quality transmission, torque converter and accessory parts. For more information about TCI[®] and its products, visit us online at www.tciauto.com, or call us at 1.888.776.9824.
