

FAST™ XFI Sportsman™ Blow-Through Supercharger EFI System

Memphis, TN – Blow-through applications that are traditionally carbureted now have the option to utilize an EFI setup.

The FAST™ XFI Sportsman™ Blow-Through Supercharger EFI System replaces the carburetor commonly found on supercharged applications with an easy-to-install EZ-EFI 2.0® throttle body. It supports up to 15 psi of boost and 1000 horsepower at the crankshaft on gasoline, making it twice as powerful as any other single throttle body blow-through product on the market. The system features a wideband O₂ sensor and fuel pressure sensors for precision tuning ability and closed-loop air/fuel ratio control. Internal Datalogging also provides recorded data to be used when tuning for maximum performance. It does so utilizing the included C-Com® software which allows adjustments with a PC. The FAST™ XFI Sportsman™ Blow-Through Supercharger EFI System provides more performance and reliability, improved gas mileage, is safer for the engine and is more easily tuned than a carbureted option.

Quick Facts

Product: FAST™ XFI Sportsman™ Blow-Through Supercharger EFI System

Part Number: #303001BT

Street Price: \$1,997.51

Social Media Pitch: The FAST™ XFI Sportsman™ Blow-Through Supercharger EFI System is twice as powerful as any other single throttle body blow-through product

Features & Benefits:

- Replaces the carburetor with an easy-to-install EZ-EFI® 2.0 throttle body
- Supports up to 15 psi of boost & 1000 HP at the crank, making it twice as powerful as any other single throttle body blow-through option
- Provides improved performance & gas mileage, is safer for the engine & is more easily tuned than a carburetor

About FAST™

In 2001, FAST™ was acquired by the COMP Performance Group™ and moved its headquarters to Memphis, TN, to become the popular electronics company that we know today. After more than a decade in the performance aftermarket industry, FAST™ is the recognized leader in advanced EFI technology. Now, not only does FAST™ offer the components to adapt virtually any engine to fuel injection, it is also an emerging force in the ignition market. With the latest in easy-to-use electrical components, the experts at FAST™ have everything that you need to make high-tech horsepower. Additional information about FAST™ and its products can be found at www.fuelairspark.com or at 1.877.334.8355.
